AN AWARD-WINNING EXPERIENCE

- The True North experience is highly decorated, with numerous global awards and a consistent ranking among the world's best adventure cruise companies, ensuring you're in expert hands.
- As an undisputed market leader, True North offers activity-based itineraries tailored for the most discerning adventurers.
- True North consistently receives exceptional customer satisfaction feedback.

ADVENTURES TAILORED TO YOU

- Private charters enable us to customise your itinerary for a uniquely personal journey.
- Daily activities can be tailored to special interests, such as rock art, photography, natural history, fishing, diving, snorkelling, and cultural encounters.
- Special occasions can be arranged, whether it's enjoying champagne and freshly shucked oysters on the beach or savouring mud crabs on the bow while watching a breathtaking Kimberley sunset.

CORPORATE AND PRIVATE CHARTERS

- True North and True North II are ideal for private charters, with the option for whole-vessel incentives.
- Corporate events offer a new and inspiring view each day of your itinerary.
- Complimentary high-speed WiFi ensures seamless contact with the corporate world.

“Wow, what can we say, a totally unbelievable experience that you again provided us and our guests on the recent charter. The weather was superb, fishing was excellent, and ALL the crew were first rate, and in our opinion went over and above for us. I do not think we will ever be able to repay True North for providing such an experience in our own backyard of Northern Australia, especially with our closest mates.

Thank you very much once again.”

Michael Field

Location
Doubtful Bay

Activity
Sightseeing

WORLD-CLASS AMENITIES AND SERVICE

- Award-winning, personable, and authentic service—our Australian crews meticulously manage every detail of your experience with their unique touch.
- True North and True North II are the only adventure-cruise ships in the Southern Hemisphere equipped with full-time helicopters.
- Both vessels are purpose-built to navigate shallow coastal environments and river systems—places larger ships simply cannot reach, offering a genuinely immersive experience.
